Cancer Awareness Float Parade	September 26th-Oct 6th 2023
Total Number of Students in Council(s):	Number of Members Involved in the Project:
40	20
Total Number of Students Enrolled in School(s):	Number of Other Students Involved in Project:
250	15
Total Number of Faculty employed in School(s):	Number of Faculty Involved in Project:
60	10
Number of Community Groups Involved in Project	Number of Community Members Involved in Project
2	500

THIS INFORMATION MUST BE SUBMITTED ONLINE. THE TASC WEBSITE DOES NOT ACCEPT GOOGLE DOCS.

This application must be submitted online via the TASC website.

Upload photos, newspaper articles, etc. **Scan all pages into one document and upload for judging.**

Please upload one good jpeg of the project separately.

Please consider submitting a proposal for a table talk (HS) on your project at the high school conference or for a breakout at the Middle-Level Conference for extra points. You must apply to do that.

Top Ten Project 2024: Breast Cancer Awareness Float Parade

During our annual October Breast Cancer Awareness pep rally, we decided to create a new way of spreading awareness to this cancer by hosting a float parade. We had each grade craft a mobile shoe box float that carried profound messages that resonated with the broader theme of raising awareness about breast cancer. Students demonstrated remarkable creativity and attention to detail, incorporating pink ribbons, symbols of hope, and powerful messages of encouragement into their designs. Each grade went above and beyond to create a fun, unique float that had elements of breast cancer awareness. Additionally, this parade showcased the collaborative efforts of each grade, fostering a sense of unity and shared purpose within the student body. Allowing for students to engage in meaningful conversations on how they can support breast cancer awareness. The parade emphasized the importance of empathy, compassion, and collective action in addressing significant societal issues. Overall, the event left a lasting impact on participants, promoting not only creativity but also a sense of responsibility to contribute positively to the broader community.

January 22, 2024

To the Texas Association of Student Council,

High school students at Harmony Science Academy Carrollton were looking for a creative way to raise awareness about breast cancer last October. Each grade level constructed mini floats that incorporated our school and breast cancer awareness. Overall, the creativity and effort put into the floats are commendable. The designs effectively conveyed the theme, incorporating symbolic elements associated with breast cancer awareness. Color choices, such as the prominent use of pink, aligned well with the cause.

Additionally, the floats successfully engaged the student audience and communicated the importance of breast cancer awareness through visual impact. The incorporation of educational messages or statistics related to breast cancer could enhance future floats, providing an informative aspect to the awareness campaign.

The collaboration among students in constructing the floats demonstrated teamwork and dedication to the cause. They had a lot of fun working on them together and displaying them during the high school pep rally. This is something that they enjoyed and will most likely continue, not only for breast cancer awareness but also for other important social causes.

Sincerely,

Judith Knieling
