NOT IN MY SCHOOL! NOT
IN TEXAS!

Breakout - Set 4

Sarah Millhorn, Lisa Gilbert

Slavery is an ancient abuse that still persists today and is one of the greatest human rights challenges of history. Recent research says there are 313,000 victims of human trafficking in Texas alone. While it may be largely hidden from sight, people are still trapped by different forces---less visible but powerful nonetheless. TASC has taken on the challenge of modern day slavery as its state service project. We invite honor society to join in this battle. Learn how your student leaders, both middle level and high school, can participate.
