

TASC Endorsed Program Request

Board of Directors Policy Regarding Endorsements and/or Partnerships

Programs/projects that complement the mission and purpose of student council may be considered by the Board for an endorsement/partnership. Programs or projects interested in forming a partnership with TASC must demonstrate in writing the ways in which the program enhances the work of or provides a resource to student councils. Programs/projects sponsored by member schools are preferred. The Board will approve this type of relationship at the summer board meeting. The board may determine to limit the number of endorsed programs. These relationships benefit TASC member schools directly, either by providing a resource to the council or to individual students. Endorsed programs often exhibit at TASC events and present at TASC events. Benefits to an endorsed program/partner may include access to member schools' data for marketing, inclusion in conferences through presentations and reduced exhibit rates, a link on the TASC website, and inclusion in the TASC Resource Guide. Relationships are established by a board vote and are renewed annually. Existing programs must demonstrate participation by and benefit to schools and justify the continuation of the relationship in writing.

Indicate if this is a new or continuing partnership	Continuing
Name of Organization/Program	Digital4Good x #ICANHELP
Primary Contact Information	
Name	Kim Karr
Address	2250 Renwick Lane, Antioch, CA 94509

Phone number	925.237.1056
Email	admin@icanhelp.net
Mission/Purpose of Organization	Our mission is to foster a future where students and educators are confident digital leaders who use technology to build stronger communities, solve real-world problems, and champion a culture of respect and inclusivity online.
How does your mission align with the goals/purpose of Texas Student Councils? (See About Us tab at www.tasconline.org.)	Like TASC, Digital4Good x #ICANHELP places a strong focus on promoting student leadership and empowering student voices. We equip students with the skills to lead, educate, and support their peers in order to build more positive campus cultures and stronger school communities.

Describe in detail the process for TASC member school participation in this program.	TASC member schools can become involved by starting an on-campus Digital4Good club; registering for our online courses, curricula, and trainings; and/or by booking in-person presentations, workshops, and trainings. We also host an annual event, the Digital4Good Summit, which TASC schools would be invited to attend in person.
What is the benefit of this partnership to the TASC organization as a whole, its member schools or individual advisors/students?	As a partner organization, TASC will receive important AI/digital technology legislation updates and learn how they impact schools. We are willing to speak at your events and invite TASC schools to attend our own events, which include mentors from large tech companies. We can offer support and guidance to TASC and their schools in developing AI/phone policies and in dealing with social media issues.
What is the benefit of this partnership to your organization?	As a national organization, we believe it's important to connect with schools in every state so we can hear directly from students and educators about the issues impacting their area and find ways to best support them. We're more powerful when working together to solve the issues that affect schools and students today, both online and on campus.
Is there a fee for TASC schools to attain resources or participate in the program	We have free digital resources available for TASC schools: www.icanhelp.net/free-resources . We also host free webinars for educators and a free annual livestreamed event (the Digital4Good Summit). We do offer paid courses, curricula, and presentations as well.
Does participation in this program require student fundraising of any type?	No, but some students do fundraise for us because we offer curricula, programs, events, and courses created by students for students' benefit. We are a 501(c)(3) organization, and students have raised money to donate to our organization to help us continue our work.
Is this program available to student councils statewide?	Yes, our program is available to any school in the United States.
Describe in detail the resources available to TASC schools through this partnership.	*Educator webinars about Digital Citizenship, Safety, Literacy, Wellness *Support + guidance for negative/harmful social media incidents that arise at any TASC school (e.g., fake page, nude photos situation, Zoom bombing, leader posts something inappropriate) *Training workshops at TASC school events *AI and device policy support
Describe the plan for serving schools across the state of Texas.	We can send monthly updates on resources and events available to schools for TASC to share with their members. We can also deliver presentations and workshops at events. Additionally, TASC schools' students can start on-campus Digital4Good clubs or join our internship program (open to students aged 13 through college-age), which offers college credit and mentoring/networking opportunities with professionals from large tech companies.
Describe your intent to exhibit or present at the TASC Advisor Workshop in September, and the TASC Annual Conference in March. (Presentation topics must be submitted and approved prior to each	We intend to apply to present at the Advisor Workshop in September as well as the Annual Conference in March.

conference. Endorsed programs are eligible for reduced fees for exhibiting. Forms are available under Exhibitors/Sponsors at www.tasconline.org .)	
<u>Continuing Programs Only:</u> Provide data on the number of TASC schools that participated in this program in the previous year.	We had 2 students from Texas participate in our student internship program during the 2025-26 term. Furthermore, 2 Texas student leaders were selected as changemakers and will be spotlighted at our 2026 Digital4Good Summit.
<u>Continuing Programs Only:</u> Explain how TASC school/student participation has increased or changed since the partnership began.	Texas student interest/involvement in our internship program and Summit changemaker cohort has continued to grow since the partnership began.
<u>Continuing Programs Only:</u> Describe any <u>new plans</u> for serving schools and student councils across the state of Texas.	We are developing new professional development workshops for schools and districts aimed at administrators, educators, counselors, and school staff. Session topics include AI literacy, digital wellness, student leadership, school culture, and digital citizenship.
<u>Continuing Programs Only:</u> Please share any suggestions you have regarding ways that TASC can add value to this partnership.	TASC can invite Digital4Good to speak at their upcoming conferences and share our resources with their member schools.

Thank you for your service to student councils, schools, and student leadership.
